## Company Overview

Since inception, over a decade, we have developed unique capabilities to offer exclusive & tailor made product range for auto engine Cylinder Liners, Sleeves & Blocks Suitable for almost any model of Trucks, Tractors & Cars worldwide. We have attained certain standards which we never compromise on. The quality of products that we supply is superior to all. It has been achieved by a lot of hard work and dedication of our team. Furthermore, from the very beginning we have been working to meet the needs of our customers and we will continue to do so. Our stringent quality standard conforming to "OEM" standards enables us to guarantee you 100% satisfaction for our entire range of products.

Our passion and commitment to excel, leads us to not only in keeping pace with the changing times but also in visualizing and meeting the dynamic requirements of future. We have capability to supply to suite our customer's requirements as per ISS/BSS/ASTM standard. The organisation maintains high quality operation for achieving maximum efficiency and the personnel are very well trained for their skill through training & job rotation to develop intensive multi-skilled workforce.

## Product Range

We make over 1500 types of cylinder liners, Sleeves and air cooled blocks for engine variants suitable for:

ANDORIA  
BEDFORD  
BELARUS  
BMC  
BMW  
CASE  
CATERPILLAR  
CUBOTA  
CUMMINS  
DAF  
DAIMLER BENZ

DAIMLER BENZ  
DETROIT DIESEL  
DEUTZ  
FIAT-IVECO  
FORD  
HINO  
HONDA  
HYUNDAI  
INTERNATIONAL (IHC)  
ISUZU  
JOHN DEERE

KIA  
KOMATSU  
LEYLAND  
LISTER  
MACK  
MAN  
MASSEY FERGUSON  
MAZDA  
MERCEDES BENZ  
MITSUBISHI  
NISSAN

NISSAN  
PERKINS  
PEUGEOT  
RENAULT  
SCANIA

ZETOR

## Manufacturing

We possess the complete in-house manufacturing facilities, which enable us to integrate all production activities effectively, thereby enhancing productivity. High performance and technologically-latest machinery is deployed. The production team comprises of committed workers and they are trained to carry out their specific task in a most responsible manner. In house manufacturing and development of innovative processes have controlled wastage of recourses and made our products and process substantially cost-effective.

Manufacturing machinery includes Inductotherm Dura Line furnaces, Speed controlled centrifugal casting Machines, Latest models of shell moulding machines, specially designed lathe machines with hydraulic clamping attachments, CNC turning machines, and double expansion plateau honing machines fully automatic with auto sizing. Manufacturing process comprises of melting, Casting, machining, Vertical boring ,Grinding and honing.

## Quality Assurance

We at Bryan Automotive truly believe that quality of product is the reflection of the process. Our Production team maintains quality standards in all aspects of production, which help us to achieve the status of Zero Defect. We believe Quality standards change with the technology up gradation and through innovation. We have applied well integrated lean manufacturing process that focuses on Productivity, Quality, Timely delivery, Safety and morale that help us to continuously strive towards increasing customer satisfaction.

## Bryan Automotive

### Manpower Employed

Total : 60  
Administrative (Office) : 6  
Administrative (Plant) : 8  
Workers : 44

### Plant Capacity

Foundry shop : 250 Ton Per Month  
Machine shop : 50000 Pcs. Per Month

### Product Range in size

Internal Diameter : 40 mm to 325 mm  
Outer Diameter : 45 mm to 350 mm  
Length : Up to 600 mm

Quality system: ISO 9001-2000 Implementing

### Products:

All types of cylinder liners & sleeves  
Air – Water Cooled Blocks  
All types of Raw Casting And Hollow Bar

### Plant Location:

Kuvadva, Nearest Airport: Rajkot  
Distance: 20 km

### Nearest Sea Port

Kandla/ Mundra /Pipavav  
Distance: 230 km Approx.
